Manor Park Model Yacht Club, (MPMYC) has been part of Manor Park Sailing Club since 2006, set up by a small group of local radio controlled yacht sailors who were looking for an excellent venue for all year round racing, it has rapidly become known as one of the best places to sail in the Midlands with deep clear water, and a raised control area giving uninterrupted views of the course.

Raised viewing area

We currently sail the International One metre (IOM) class of radio sailing boat, this is the most popular class in the world and has a very good blend of performance and size matched with reasonable costs.

The overall size of 1000mm and a weight of 4kg makes them easy to transport, whilst still looking good on the water and the dimensions and strict control of the size of the rigs make for very close racing, and a well set up homebuilt boat can compete closely with a professionally built boat.

Club member Noel Sneyd's locally designed and built IOM.

We sail all year round, with members meeting on Wednesday and Saturday afternoons for informal racing. There is a club series that is contested over the summer months, as well as various rounds of the MYA Midlands Championship for those who wish to travel to other clubs.

The start of an RC model yacht race

All members of Manor Park Model Yacht Club are also members of the Model Yacht Association (MYA) this provide valuable third party insurance and also is the governing body of our sport. They organise National and District racing events, of which MPMYC host a round of the Midlands District Championship.

The MYA can also advise sailors of other clubs or classes of boat that are sailed.

Competitive but friendly atmosphere
